

Alternative No. 1

The Division of Housing Services proposes to allocate to each eligible tribe a base amount of \$20,000 plus a percentage of the remaining funds based on the total populations within the following four categories in the 1993 Bureau of Indian Affairs' Indian Service Population and Labor Force Estimates Report: (1) Over 65 years of age, (2) Unable to Work, (3) Total Not Employed of the Potential Labor Force, and (4) Total number of Labor Force earning \$7,000 or less per year. A tribe's percentage share would represent a comparison of the tribe's data to the national totals. For example, tribe X receives a total of \$25,000 for its share of housing funds. This consists of a \$20,000 base and \$5,000 additional funds based on the following formula:

$$\frac{400 \text{ (total for one tribe in four categories)}}{400,000 \text{ (total nationwide for all tribes in four categories)}} \div .001 = 0.10\%$$

which translates into: 5,000,000 (total funds after \$20,000 deducted per tribe) multiplied by .001 = \$5,000 in additional funds, which results in: \$20,000 (base amount for tribe X) plus \$5,000 (additional funding) \$25,000 total funding for tribe X

If any eligible tribe, including an OSG tribe, was not included in the 1993 BIA Labor Force Report and chooses to obtain additional funding beyond the \$20,000 tribal base, it must submit verifiable data that tribal members in the four categories exist in its service population to the Area Director by September 15, 1996 for certification. If the data is not submitted, the Area Director will formulate a total for the four categories based upon Service Population estimates and certify the results. The data certified by the Area Director will be included in the nationwide totals for HIP. If the 1995 BIA Indian Service Population and Labor Force Estimate Report is published in final form, this document will be used to calculate the appropriate share.

Alternative No. 2

The Division proposes to use the same methodology as the first alternative, but allocate a base of \$10,000 rather than \$20,000. If the 1995 BIA Indian Service Population and Labor Force Estimate Report is published in final form, this document will be used to calculate the appropriate share.

Dated: August 23, 1996.

Ada E. Deer,

Assistant Secretary—Indian Affairs.
